Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

Touch. - The patient felt the touch of a finger anywhere on legs, back, and abdomen. In some places on the legs and abdomen below the nipple, it was difficult for him to recognize the prick of a pin other than as a touch. In other places the patient experienced pain when pricked with a pin. Pain. - There was a numbness of both legs, extending up the trunk to a level an inch above the nipple. There were no shooting pains nor gastric crises. There was pain between the shoulders in the region of the original injury, and where he first felt pain after he was hurt. This pain was elicited by jarring or bending forward and had persisted ever since the injury. Temperature. - He did not recognize heat or cold (presumably in area below line of sensory limit), sometimes calling the hot cold, and the cold hot. The patient was observed from time to time. The deep reflexes in legs became more active; the sensory disturbances increased until pain or temperature sensibility was more and more impaired. Supplementary General Examination. - As to rectal and vesical control, his bowels moved daily without catharsis and he had no trouble with his sphincters. For the past five months he had had trouble with starting micturition. Just above the level of the nipple, a little higher on the left side, there was a welldefined band three to four inches wide extending around the body which was distinctly hyperaesthetic. From this level down the sensation was...
