Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Too many of us forget the time we got our first setting of eggs and just how eagerly we read every word we could find on how to rear chicks, feed, make coops and all the varied problems of poultry keeping. I did, like many of you have just done, answered an advertisement of one of the breeders claiming to have 57 varieties of land and water fowls. We got the immense catalog and then could hardly sleep nights thinking what an immense farm that breeder must have and if we only had it we would be in paradise, as far as this world is concerned. Somehow we are all after something cheap and at bargain prices. These little one inch ads scattered about in the periodicals and strangely quite scarce in the poultry journals have an enticing way...
