The application of the skill set changes as the project or programme progresses through its lifecycle. For example at the initiation and or definition of a project/programme the manager must position themselves as a leader rather than just a manager of day to day activities. The title describes how the role of leader looks and what actions demonstrate leadership rather than management. The title provides practical help in the form of checklists for suggested tasks, templates for key documents and agendas for suggested meetings. It contains a step-by-step guide to how the key skills within leadership can be demonstrated in different situations and is backed up by examples and anecdotes from project managers in different industry sectors in both the public and the private sector.
