## A CLINICIAN'S BRIEF GUIDE TO THE MENTAL CAPACITY ACT (2ND REVISED EDITION)

RCPsych Publications. Paperback. Book Condition: new. BRAND NEW, A Clinician's Brief Guide to the Mental Capacity Act (2nd Revised edition), Nick Brindle, Tim Branton, Alison Stansfield, This easy-to-read book explains the nuts and bolts of the Mental Capacity Act 2005 that clinicians need to understand and use in their daily practice. This Act now gives all clinicians the authority to provide medical care and treatment for people over 16 years of age who lack the capacity to consent for themselves. It covers: how to assess whether a person lacks capacity and how to clarify the threshold of decision-making incapacity; the range, scope and limitations of the various authorities to treat (including 'best interests' decisions, advance decisions and lasting powers of attorney); the range of safeguards in place (such as the Deprivation of Liberty Safeguards (DoLs), the Court of Protection and Independent Mental Health Advocates); and relevant aspects of the Human Rights Act 1998, the Mental Health Act (including all recent amendments) and illustrative case law. There has been a copious output of case law from the courts over the past two years, since the first edition, and this second edition expands on clinically relevant issues that have emerged from the courts and assist in bridging the gap between court judgments and the frontline clinician. This book is aimed at all clinicians (in England and Wales). It will also aid understanding for everyone who helps care for people who cannot make decisions for themselves (such as elderly relatives) or who wishes to make legal provision for their own future care.
