By Greg Graffin

Harper Perennial. Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 7.9in. x 5.2in. x 0.8in. Take one man who rejects authority and religion, and leads a punk band. Take another man who wonders whether vertebrates arose in rivers or in the ocean. Put them together, what do you get Greg Graffin, and this uniquely fascinating book. Jared Diamond, author of *Guns, Germs, and Steel* *Anarchy Evolution* is a provocative look at the collision between religion and science, by an author with unique authority: UCLA lecturer in Paleontology, and founding member of Bad Religion, Greg Graffin. Alongside science writer Steve Olson (whose *Mapping Human History* was a National Book Award finalist) Graffin delivers a powerful discussion sure to strike a chord with readers of Richard Dawkins *The God Delusion* or Christopher Hitchens *God Is Not Great*. Bad Religion die-hards, newer fans won over during the band's 30th Anniversary Tour, and anyone interested in this increasingly important debate should check out this treatise on science from the god of punk rock.
