Srikunj Sadbhavana Manch/D.K. Printworld (P) Ltd, 2012. Softcover. Book Condition: New. 5th or later edition. 14 x 22 cm. Among the many reflexology parts a human body has, ear is most unique and significant. Ear is rich in nerve endings and placed at outer rim of the skull, vibrating with energy. In the ear body`s representation corresponds to a child in mother`s womb, curled in an upside down manner. Because of this the ear cure mechanism is also effective in curing problems originated in the womb. Ear acts like the body`s radar reflecting its working precisely. When these reflex points are activated the sensitive ear nerves carry the return cure reflexes as electromagnetic waves to the organs and body parts, the body responds quickly and diseases are cured. This is a wonderful effective nature cure through its remote control operation. This book will serve as a guide to variety of readers especially those interested in traditional medicine and healing systems. Nature`s gift to mankind. Book Contents 1.
